Features & Advantage

- Helps to bring water loss due to hybrid (Selenium & Calcium) technology.
- Ensure desired purity to prevent high self discharge.
- Delivery high current in Cold & High temperature environment.
- High Cranking Power & Long Life.
- Long Reserve Capacity.

Features & Advantage

- Design for standby & Deep Cycle.
- Slow Discharge in all condition.
- Long backup at discharge period.
- Very low maintenance during battery life.
- Fast Charge acceptance.
- Imported Paste additives for Long life in deep discharge cycling.

Application

- UPS
- Inverter
- Solar
- Telecommunication
- Railway
